Portfolio page: <https://react-portfolio-lemon-kappa.vercel.app/>

### Summary

I am Front-End Developer with entry-level experience specializing in web development and i also have experience in realization fullstack MERN projects. Actively looking for work to use received skills. I want to develop in this direction and for about 6 months I've been actively studying the necessary technologies. Self-learning, attentive and responsible.

### Hard skills

I have experience in using the following technologies:

- HTML, CSS (SCSS)
- JavaScript
- React
- Redux ( Redux Toolkit )
- TypeScript
- Node.js ( Express )

I also have a basic knowledge of how to work with:

- Git
- SQL ( Postgres), NoSQL (MongoDB )
- Google Maps API
- gRPC

### My projects

Some of my pet projects:

1. MERN project Jobify : fullstack project for creating updating and tracking jobs

GitHub: [https://github.com/SerhiiAsauliak/MERN\\_Project\\_eJOB](https://github.com/SerhiiAsauliak/MERN_Project_eJOB)

Render: <https://mern-project-jobify-rmfy.onrender.com>

2. Project Pizza Store : frontend part of an application for pizza ordering with sorting and shopping cart (mockapi is used as a database).

GitHub: [https://github.com/SerhiiAsauliak/React-TypeScript\\_Project\\_Pizza](https://github.com/SerhiiAsauliak/React-TypeScript_Project_Pizza)

Versel: <https://react-type-script-project-pizza.vercel.app/>

3. Project Marvel Heroes : an app for getting and rendering various information about marvel heroes and comic books from marvel API.

GitHub: [https://github.com/SerhiiAsauliak/React\\_project\\_marvel](https://github.com/SerhiiAsauliak/React_project_marvel)

Versel: <https://react-project-marvel.vercel.app/>

Other projects on my [GitHub](#).
