Summary

A Front-End Developer with entry-level experience specializing in web development. Actively looking for work to use received skills. I want to develop in this direction and for about 6 months I've been actively studying the necessary technologies. Self-learning, attentive and responsible.

Hard skills

I have experience in using the following technologies:

- HTML, CSS (SCSS)
- JavaScript
- React
- Redux (Redux Toolkit)
- TypeScript

I also have a basic knowledge of how to work with:

- Git
- SQL (Postgres), NoSQL (MongoDB)
- Node.js (Express)
- Google Maps API
- gRPC

My projects

Some of my pet projects:

1. Project Pizza Store : frontend part of an application for pizza ordering with sorting and shopping cart (mockapi is used as a database).
